# Zurich Population Research Conference

January 20-21, 2025

Discover the forefront of interdisciplinary population research at the inaugural **Zurich Population Research Conference**, hosted by the University of Zurich's Population Research Center (UZH PRC). Our mission is to advance research excellence in population studies by bringing together international experts from diverse disciplines.

**Save the Date! January 20-21, 2025**

### **Conference Themes**

Interdisciplinary and Integrative Approaches to Health, School-Aged Children and Adolescents, Migration, Digital Participation, Innovative Methods, and more.

### **Format**

Experience two days at the University of Zurich, featuring keynote speeches, plenary sessions, thematic panels, and additional platforms for interdisciplinary networking and in-depth engagement with cutting-edge research.

### **Keynote Speakers**

- Melinda Mills (Nuffield College, University of Oxford)
- Emilio Zagheni (Max Planck Institute for Demographic Research)

The **Call for Papers** opens on May 15<sup>th</sup>. Stay tuned for more details!

The UZH PRC offers 10 scholarships that cover travel and accommodation for PhD students or Postdocs (priority will be given to participants from low- and middle-income countries).

### **Conference Committee**

Laura Bechtiger, Anne Borchard, Karsten Donnay, Andrea Farnham, Jan Fehr, Thomas Friemel, Milo Puhan, Seraina Ruegger, Lilly Shanahan, Michael von Rhein, Markus Wolf, Viktor von Wyl.
